

SharkSPIN™
Product Information

What is SharkSPIN?

SharkSPIN is a final step, flow conditioning technology that promotes better pump fillage and efficiency. Swirl flow insert is made of advance 3D printed composite material to control scale and corrosion risks.

Improves pump efficiency and reliability by:

- › Reducing pressure loss across the standing valve
- › Avoiding foam generation and solution gas liberation (which increase pump gas interference)
- › Preventing damaging “valve chatter” associated with inconsistent gas and fluid flows
